EXTRACTS FROM CRITICAL REVIEWS.

This new dictionary is the best book of its kind in the English language. For every family, the members of which have mastered the art of reading, the purchase of Webster's International Dictionary will prove a profitable investment.—*The Globe*, Toronto, Jan. 1st, 1891.

The new "Webster's" is certain to achieve even greater popularity than any preceding edition, and more could not well be said in proof of its value.—*The Mail*, Toronto, Oct. 16th, 1890.

No pains have been spared to make it the standard authority. Such a work, ought of necessity, to be in every one of our academies and model schools. It is in every respect a splendid volume.—*The Educational Record*, Montreal, Dec. 1890.

Webster's International Dictionary is undoubtedly the most complete, compact, and convenient popular dictionary that has yet been presented to the public.—*The Morning Herald*, Halifax, Nov. 26th, 1890.

The school trustees who would invest in Webster's International and place it in the school room, would confer an inestimable boon on the rising generation.—*The Educational Review*, St. John, October, 1890.

It would seem that they have neglected nothing and overlooked nothing that one could desire in such a work.—*The Canada Educational Monthly*, Toronto, Oct. 1890.

The family that invests in the "International Webster" has something very much akin to the mysterious juice in the Arabian tale whereby its possessor was enabled to unlock all the hidden treasures of knowledge.—*Presbyterian Review*, Toronto, Nov. 6th, 1890.

The new title "International" is a just recognition of the fact, that the English language is becoming the popular and authorized speech of the nations of the earth, and will tend to make the "Webster" more than ever the Universal English Dictionary.—*The Canadian Methodist Quarterly*, Toronto, April 1891.

CAUTION is needed in purchasing a dictionary, as photographic reprints of an obsolete and comparatively worthless edition of Webster are being marketed under various names and often by misrepresentation. Get the Best, The International, which bears the imprint of

Explanation of the Articles in the Calendar.

These pages are calculated for Toronto, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada. For Latitude and Longitude of Observatory see page 20.

NOTE.—Standard times* are given in all columns headed Toronto. In calculating, the mean time has been taken as 17m. 34s. slower than standard.

The times* of the SUN'S RISING AND SETTING† are given for the upper limb, and are corrected for refraction for Toronto.

The standard times* both for the rising and setting of the Moon's centre are given for every day for Toronto.

The column, SUN ON MERIDIAN, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time* at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m W. It passes the meridian twice on October 10.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The six last columns will serve with sufficient accuracy for the whole of Canada.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation corresponding to any other Latitude is required, the number given in the column should be corrected by means of the following Table.

Latitude	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees	−5′ 12″	−3′ 34″	−1′ 50″	0′ 00″	+1′ 55″	+3′ 57″	+6′ 6″	+8′ 21″	+10′ 45
2nd Correction for each minute of latitude	+1″.6	+1″.7	+1″.8	+1″.9	+2″.0	+2″.1	+2″.3	+2″.4	+2″.5

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar or added to it, according as the degrees of latitude are less or greater than 45°.

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the Table by the number of minutes in the latitude.

Thus for latitude 43° 20′...1st correction = −3′ 34″ — 2nd correction +1.7 × 20 = +0′ 34″
" " 47° 40′... " " = +3′ 57″ " " +2.1 × 40 = +1′ 24″
" " 45° 10′... " " = 0′ 0″ " " +1.9 × 10 = +0′ 19″

MOON'S PHASES.—This Table gives the times (standard 75th meridian)* when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

Latitude	42°	43°	44°	45°	46°	47°	48°	49°	50°
	h m s	h m s	h m s	h m s	h m s	h m s	h m s	h m s	h m s
Constant	5 54 28	5 54 19	5 54 9	5 53 58	5 53 47	5 53 36	5 53 25	5 53 13	5 53 0
Difference for 10′ of latitude.	−1.5	−1.7	−1.8	−1.8	−1.8	−1.8	−2.0	−2.2	

* In the present Almanac, the hours are numbered from 0 (midnight) to 23.

† Although these times are calculated for Toronto only, the standard times at other places not differing much from it in latitude may be obtained with sufficient accuracy for ordinary purposes, by adding four minutes for every degree west of Toronto and subtracting four minutes for every degree east of Toronto.

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude. To ascertain when any star found in the following Table will be on the meridian, *add* the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, *subtract* the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the *setting* of a star, *add* the same number to the time of its meridian passage. Those stars marked (....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

The Eastern Standard Times of the contacts for places near Toronto may be found from the following formula:—

*First Contact.**—cos w = 1·38141—[0·11921] sin l—[0·06330] cos l sin (88°30'·06–λ).

t = $14^h\ 58^m\ 9^s$—[3·77049] sin w—[3·81971] sin l—[3·89997] cos l cos (159°29'·98–λ).

Contact on the Sun's limb, w—40°24' from the North towards the West.

*Last Contact.**—cos w = 1·89991—[0·15948] sin l—[9·99421] cos l sin (136°30'·02–λ).

t = $13^h\ 28^m\ 1^s$ + [3·74315] sin w—[3·71544] sin l + [3·91255] cos l sin (114°44'·28–λ).

Contact on the Sun's limb, w + 33°1' from the North towards the East.

IV.—A Total Eclipse of the Moon, November 4th, 1892, invisible in Canada.

* In these formulas the co-efficients of the terms are the numbers whose logarithms are the numbers within the brackets [ ]; also *l* denotes the *geocentric* Latitude, and λ the Longitude West of Greenwich.

CENSUS OF CANADA, 1891.

Electoral Divisions.

The following, with the exception of Nipissing and the Unorganized Territories, is a statement of the population of Canada by electoral districts. The figures in the column of 1881 for the Provinces of Ontario and Manitoba differ in many districts from those which appear in the Census volumes of 1881, owing to the changes of boundary which were made by the Redistribution Act and the additions of territory. In every district in which the population of 1891 is compared with that of 1881 the circumscription is the same.

MILITIA AND DEFENCE OF CANADA.

TOTAL EXPENDITURE, 1889-90 - - - $1,287,013 59.

Previous to the confederation of the Provinces, the defence of this country was entirely in the hands of the Imperial Government, who for that purpose maintained troops in each Province, supported by various local volunteer militia corps. This volunteer militia had, when called upon, rendered most efficient service in times of trouble.

After Confederation the British Government gradually withdrew all the Imperial troops from this country, and at present only maintain a garrison at Halifax, and a naval establishment there and on the Pacific coast.

By the British North America Act the command in chief of all naval and military forces of and in Canada was vested in the Queen, and the control of the same was placed in the hands of the Dominion Parliament. A Department of Militia and Defence was at the same time established, the first Minister being Sir George E. Cartier, and the first Militia Act was passed in 1868, 31 Vic., chap. 40. The Act was subsequently amended in various ways, but is practically embodied in the present Militia Act, 49 Vic., chap. 41, (Revised Statutes, 1886). By it the militia of Canada is declared to consist of all the male inhabitants of Canada of the age of 18 years or upwards and under 60, not exempted or disqualified by law, this population being divided into four classes, as follows:—

The first class comprises those aged 18 or upwards and under 30, being unmarried or widowers without children.

The second class comprises those between the ages of 30 and 45, being unmarried or widowers without children.

The third class comprises those between 18 and 45 being married, or widowers with children.

The fourth class comprises those between 45 and 60.

The following persons are exempt from enrolment in active service at any time: Judges, clergymen or ministers of all religious denominations, professors of colleges and teachers in religious orders, the wardens and officials of all penitentiaries and lunatic asylums, persons physically disabled, and any person being the only son of a widow and her only support. Certain other persons are exempt from service except in case of war.

The number of men to be trained and drilled annually is limited to forty thousand, except as specially authorized, and the period of drill is to be sixteen days and not less than eight days each year.

The Militia is divided into Active and Reserve land and marine force. The Active land and marine force is composed of men raised either by voluntary enlistment or by ballot, and the Reserve force consists, practically, of the whole of the efficient men not serving in the Active Militia of the time being.

The period of service is three years.

The strength of the Active Militia (including the Permanent Force, limited by the present Militia Act to 5,000 men) was, in October, 1891:—Cavalry 2,006; Field Artillery, 1,440; Garrison Artillery, 2,352; Engineers, 179; Infantry, 31,733; Total, 37,710.

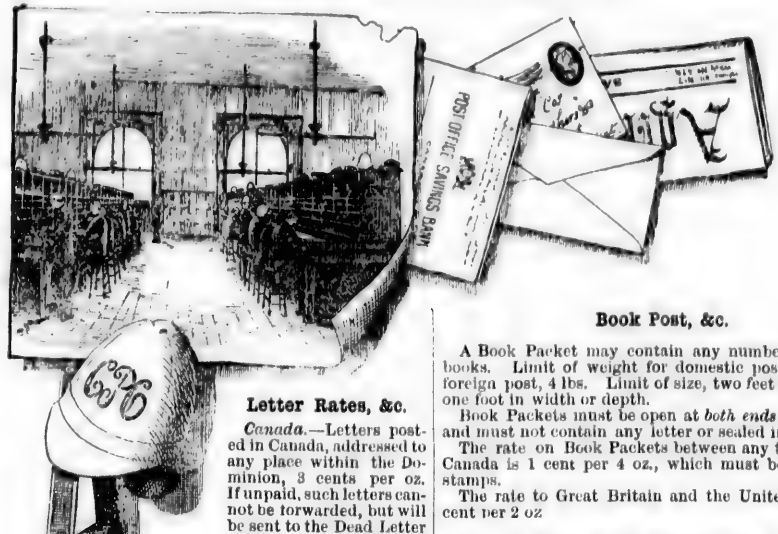
POSTAL INFORMATION.



Letter Rates, &c.

Canada.—Letters posted in Canada, addressed to any place within the Dominion, 3 cents per oz. If unpaid, such letters cannot be forwarded, but will be sent to the Dead Letter Office. If insufficiently prepaid, the letter will (provided at least a partial prepayment is made) be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office, provided that the office is not one at which free delivery by letter carriers is established, are charged 1 cent per oz., and must be at least partially prepaid; otherwise they are sent to the Dead Letter Office. All postage must be prepaid by Postage Stamps. Letters of this nature mailed at and for delivery from an office at which there is a free delivery by letter carriers are liable to 2 cents per ounce.

Post Cards.—From any place in Canada to any other place in Canada or to the United States, 1 cent each. British and Foreign, 2 cents each.

United Kingdom.—Postage on Letters, 5 cents per ½ oz., whether by Canadian or New York Steamers. If sent unpaid, double postage will be charged.

Newfoundland.—All classes of matter, same rates and regulations as to United Kingdom.

Bermuda.—Letters, 5 cts. per ½ oz. Newspapers and printed matter generally, 1 cent per 2 oz.

United States.—The rate on letters to the United States is the same as in Canada, and at least one rate must be prepaid.

Registration of Letters.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration (use Registration Stamp), in addition to the Postage, is, on all classes of matter, five cents.

Both the Postage charge and Registration fee should, in all cases, be prepaid by stamp.

Registered Letter Stamps have been issued of the denomination of 5 cents, which may be obtained at any Stamp Agency.

Registration Stamps cannot be used in payment of postage.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

Book Post, &c.

A Book Packet may contain any number of separate books. Limit of weight for domestic post, 5 lbs.; for foreign post, 4 lbs. Limit of size, two feet in length, or one foot in width or depth.

Book Packets must be open at *both ends or both sides*, and must not contain any letter or sealed inclosure.

The rate on Book Packets between any two places in Canada is 1 cent per 4 oz., which must be prepaid by stamps.

The rate to Great Britain and the United States is 1 cent per 2 oz

Miscellaneous Matter.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of the rates indicated below. The regulations of the British Post Office do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom by Book Post.

On all books, pamphlets, occasional publications, printed circulars (productions of the type-writer, or imitations thereof are not admissible as circulars), prices current, hand-bills, and other matter wholly in print, and on packages of seeds, cuttngs, bulbs, roots, scions or grafts, patterns or samples of goods or merchandise, the rate of postage is one cent for each four ounces or fraction of four ounces; and on all book and newspaper manuscripts, printers' proof sheets, whether corrected or not, maps, prints, drawings, engravings, lithographs, photographs, when not on glass or in cases containing glass; sheet music, whether printed or written; documents partly printed or written, not being letters, or intended to serve the purpose of letters—such as deeds, insurance policies, militia, municipal and school returns, school or college examination papers or other documents of like nature,—and on all other miscellaneous matter transmissible by post and not otherwise herein expressly provided for, the rate of postage is one cent for each two ounces or fraction of two ounces; and the postage rate must in every case be prepaid by postage stamps or stamped post bands or wrappers; provided that no letter or other communication intended to serve the purpose of a letter be sent or inclosed in any such package or thing mentioned, and that the same be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision; (if enclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged); and that the postage rate be prepaid by postage stamp or stamped postbands or wrappers in all cases.

No packet of miscellaneous matter can be transmitted by mail if it exceed, 5 lbs. in weight, 24 inches in length or 12 inches in width or depth.

Legal and commercial papers generally (including Bank Pass-Books) are liable to *letter rate* of postage, except when sent as parcels by Parcel Post, and the exceptions above given to matter of that class are restricted to the documents specified, such as Deed and Insurance Policies.

Newspapers and Periodicals.

Newspapers and periodicals *printed and published in Canada*, and issued not less frequently than once a month from a known office of publication or news agency, and addressed and posted to and from the same for transmission by mail to regular subscribers or news agents in Canada and the United States are sent free; if addressed to Great Britain, they may be posted by the same on prepayment of a rate of eight cents for each pound weight in bulk, or fraction of a pound; and such newspapers and periodicals are to be put up into packages and delivered into the Post Office, and the postage rate thereon prepaid by the publisher or news agent, being the sender thereof, under such regulations as the Postmaster-General may from time to time make.

On all newspapers and periodicals posted in Canada, for delivery in the Dominion, other than those addressed to regular subscribers or news agents, from office of publication or news agency, including all newspapers and periodicals published less frequently than once a month, the rate will be *one cent per 4 oz.*, to be invariably prepaid by Postage Stamp.

Newspapers and periodicals weighing less than 1 oz. each may be posted singly, if prepaid by Postage Stamp ½ cent each.

The postage on specimen newspapers and papers and periodicals published less frequently than once a month is one cent per lb.

Transient Newspapers.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, *other than Canada newspapers sent from the office of publication, and British newspapers posted by news agents for regular subscribers* in Canada. When addressed to any place within the Dominion, or the United States, they must be prepaid the following rates by Postage Stamp:—

If weighing less than 1 oz., half a cent each.

If weighing over 1 oz., one cent per four oz. or fraction of four oz.

On transient newspapers addressed to the United Kingdom the rate will be one cent per 2 oz.—to be prepaid by Postage Stamp. Canada newspapers *posted from the office of publication* to subscribers in the United Kingdom—sent in the Mails forwarded by Canadian Packet or *via* New York must be prepaid by Postage Stamp at the transient paper rate of one cent per 2 oz. All newspapers and periodicals prepaid at the bulk rate of 8 cents per lb., must be stamped "Prepaid by Publisher," at the Post Office where the newspaper or periodical is mailed. The English Post Office requires *each newspaper or periodical* to be stamped. If sent in packages the English Post Office declines to accept them.

Patterns and Samples within the Dominion.

Patterns and Samples of Merchandise and Goods for sale, not exceeding 24 oz. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on prepayment by Postage Stamp of a rate of 1 cent per 4 oz., under the following regulations:

If such rate be not fully prepaid by the stamps affixed, the packet to be rated with the deficient postage, and a fine of 5 cents in addition.

Packages of Samples and Patterns, addressed to any place in Canada, may be registered by affixing thereto stamps to the value of 5 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Patterns or Samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened; or in bags entirely closed, provided that they be transparent, so that the officers of the Post Office may be able to satisfy themselves as to the nature of the contents.

The packet may bear on the *outside* the address of the sender, in addition to the address of the person for whom it may be intended; and also a trade mark or number, and the price of the sample enclosed; *inside*, there must be no enclosure but the samples or patterns themselves. The particulars, however, of the trade marks, numbers, and prices may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade patterns or samples, are not admissible.

United Kingdom and United States.

Patterns and Samples of Merchandise, when addressed to places in the United Kingdom must not exceed 12 oz. in weight, and to the United States 8 oz., and must be prepaid by postage stamp at the following rates:—1 cent per 2 oz. or fraction of 2 oz., with a minimum prepayment of 2 cents covering a weight of 4 oz.

Useful Hints.

Register all valuable letters. Transmit money by Money Orders. Make complaints and inquiries in writing, and address the Postmaster-General at Ottawa. Preserve, and request correspondents to preserve, envelopes of missent or delayed letters. Send to the Postmaster-General envelopes of letters about which you seek information or make complaint. In addressing letters add the name of the *County* and *Province* in which the office addressed is located. Place stamp on the right hand upper corner of the address side. Put your own name and full address in or on letter, to insure return if it cannot be delivered. In affixing postage stamps moisten the envelope, *not the stamp*. When stamps are moistened the gum is apt to be removed.

Parcel Post.

The charges on Parcels by the Parcel Post to places within the Dominion, is 6 cents for every 4 oz. or fraction thereof (with 5 cents additional if Registered). No letter must be inclosed; if any discovered, the amount paid will be forfeited, and the Parcel charged at unpaid

Letter rates. No Parcel must exceed 5 lbs. in weight, and must be prepaid by stamps.

Eye-glasses and spectacles may be sent by mail when properly put up and prepa by Parcel Post.

Parcel Post with the United Kingdom, Newfoundland and other British Colonies and Foreign Countries.

An arrangement has been entered into with the Post Office of the United Kingdom and Newfoundland for a Parcel Post, under which closed Parcels not exceeding 7 lbs. in weight may be posted in the United Kingdom, Newfoundland and other British Colonies and Foreign Countries, when addressed for delivery at certain Post Offices in Canada, and may in like manner be posted at those Canadian Post Offices for destinations in the United Kingdom, Newfoundland and other British Colonies and Foreign Countries.

The Parcels exchanged with or *via* the United Kingdom will pass exclusively in the Weekly Mails conveyed by the Canadian Steamers to and from the St. Lawrence in Summer and Halifax in Winter, and such Parcels cannot be sent *via* New York.

The Parcel Post with the United Kingdom, Newfoundland and other British Colonies and Foreign Countries, will be governed by the following regulations:

1. A Parcel must not exceed 7 lbs. in weight.
2. The dimensions of a Parcel must not exceed 2 feet in length by 1 foot in width or depth.
3. A Parcel must not contain any explosive, combustible, or dangerous articles, nor any article of a perishable or fragile character, nor liquids or matters likely to injure other Parcels or mail transmissions.
4. All Parcels must be securely and substantially packed and closed
5. Each Parcel must be plainly directed, and such direction must include the name and full address of the person for whom the Parcel is intended.
6. For each Parcel the sender must fill up a Customs Declaration. On this form the sender will supply an accurate statement of the contents and value of the Parcel, also the address thereof, with signature and place of abode of the sender. The Customs Declaration must be securely affixed by mucilage or paste to the Parcel to which it relates.

Parcels from the United Kingdom or any other place beyond the Dominion will be liable to Canadian Custom duties, and under existing regulations must be examined for the purpose by an Officer of the Customs *in the presence of the persons addressed.*

Parcel Post Charge.

All the Dominion 25 cents per pound or fraction of a pound to the United Kingdom and Barbados, and 15 cents to Newfoundland.

Prepayment by postage stamp is required in all cases. Parcels must be handed to the Postmaster; in no case should they be dropped into a letter box or other receptacle for mail matter.

New Post Offices are established by the Department whenever it is ascertained that a sufficient number of inhabitants can be accommodated, and there is a probability of a sufficient amount of correspondence to warrant such a measure. When a new Post Office is required, a petition should be addressed to the Postmaster-General at Ottawa, signed by as many of the inhabitants as can conveniently subscribe the same. The petition should state the name of the township and the number of the lot and concession on which it is desired the office should be established; the distance from the neighbouring offices; whether there is a village at the site of the proposed Post Office; the number of mills, stores, taverns and houses thereat; the extent of the settlement to be served, and the probable cost of the mail service; together with any other facts which may form any ground for giving the accommodation applied for.

THE LAKE ST. JOHN TERRITORY.

The territory in question extends from the head of navigation of the river Saguenay, at Chicoutimi, to the northern boundary of the Province of Quebec, a distance of 220 miles, and from the sources of the waters flowing into Lake St. John, from the East, to the river St. Maurice, and embracing the valley of the river Batiscan, a distance of 200 miles, the whole forming an area of 44,000 square miles, or about 28,000,000 acres. Comparatively little is known of this great country, with the exception of the valley of Lake St. John, which, within the last few years, has been colonized with great rapidity, and now contains a population of some 40,000.

The Saguenay and St. Maurice regions are already the field of large lumbering operations, estimated at 60,000,000 feet, B.M., per annum, or equivalent to about one-fourth of the whole export of sawn lumber from the port of Quebec.

Lake St. John

Is thus described by a gentleman who visited it recently:—"It is a magnificent sheet of water, abounding in fish, such as the Ouananiche, (Fresh Water Salmon) weighing from 5 to 14 pounds, and said by sportsmen to be equal in every respect to the ordinary salmon, Pike, Doré, and other smaller kinds of fish.

Only on a very fine day can the other side of the lake be seen; at all other times it conveys the impression of an inland sea. Following up the west shore of the lake the scenery is very fine. A distant blue point, hardly visible at first, gradually resolves itself into a long coast line, dotted with farms, villages and churches, reminding one of the St. Lawrence below Montreal. The eye never tires of the beautiful landscape; on one side fields of wheat, rising gradually from the border of the lake, on the other the broad expanse of the lake.

The Soil

Is almost universally composed of a rich grey clay, the land seems to be inexhaustible. At Pointe-aux-Trembles I was shown a field of wheat, which had been producing that grain for the last fifteen years, without the application of any manure; and the grain I saw this year was as fine as any to be found in this district. Truly one is struck with wonder at the richness of the soil, for I believe there is none richer in Canada.

The climate of the Lake St. John region is said to be that of Montreal; there is no doubt of its being superior to that of Quebec. The snowfall is certainly less. In fact, farmers complain that they do not get good sleigh roads till late in the winter. On the 25th September this year, I remarked that the leaves of the trees were very little tinted, and potato stems were still green. Wheat and all grains ripen and produce abundantly, as may be seen from the following extracts, taken from the census returns:"

	1861.	1871.	1881.
Wheat, bushels	10,912	136,099	154,589
Oats, "	39,316	117,249	211,216

Potatoes, bushels	101,382	156,996	287,238

Tobacco, pounds	.....	.....	67,437
Population	10,478	17,403	32,409

Potatoes, carrots and other vegetables yield abundantly, and of immense size. Wheat is of course the great test of the soil and climate of any agricultural country. Let us then compare its production at Lake St. John with the best districts of the province, viz.: the Eastern Townships, and we find that the census returns shew in 1881:—

	Population.	Bushels Wheat.	Bushels per 1000 of pop
Chicoutimi	32,409	154,589	4,800

Collegiate Institutes and High Schools.

Each of the High Schools (which form the intermediate link between the Public Schools and the Universities) is managed by a Board of Trustees, appointed jointly by the County and Town Councils. In cities the Trustees are all appointed by the City Councils, except where there is only one school in the County. The head master must be a graduate of a British or Colonial University, and certified as experienced in teaching. Assistants must also have received the prescribed training. Besides fees, local rates must be raised. Every High School with two qualified teachers receives a fixed amount of $400, and also a certain sum on salaries of teachers, general equipment, suitability of school premises and attendance. High Schools which have an average attendance of 60 pupils, may be made Collegiate Institutes, and receive additional grant. Pupils attending these schools are prepared for Matriculation in the Universities. There were 31 Collegiate Institutes and 89 High Schools, with 19,396 pupils, in Ontario in 1890.

Public Schools.

Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to manage its School affairs. ESTIMATED NUMBERS OF RELIGIOUS DENOMINATIONS AMONGST ENGLISH-SPEAKING COMMUNITIES THROUGHOUT THE WORLD.

Episcopalians	23,000,000	Free Thought, various	3,500,000
Methodists of all denominations	16,960,000	Unitarians, under several names	1,250,000
Roman Catholics	15,200,000	Minor religious sects	4,000,000
Presbyterians of all descriptions	11,100,000	German, or Dutch, Lutheran, etc	1,750,000
Baptists of all descriptions	8,600,000	Of no particular religion	13,500,000
Congregationalists	5,500,000		
English-speaking population			104,360,000

English bids fair to become the universal language; already it is more widely spread and more freely spoken than any other tongue. In Europe it is regarded as the language of polite society. On the vast Australian and North American Continents it is the one tongue; and in the East fully 15,000,000, of Hindus, Mohammedans, Buddhists, and others, read and speak English. In point of numbers at the present time, it is exceeded by the Chinese alone.—*Whitaker's Almanac.*

The Sittings of the Court and its Chambers are fixed and regulated by the Judge and Surrogate Judges at such times as they shall think fit and necessary for the due administration of justice. *Judge for the whole Province*—J. E. McDougall, Q.C. ($4000). *Registrar*—John Bruce. *Marshall*—William Boyd.

COURTS FOR THE TRIAL OF CONTROVERTED ELECTIONS.—The nature of these courts is sufficiently indicated in their title. In respect to elections for the House of Commons of Canada, the Superior Courts by one of their Judges appointed in that behalf, are invested with special Jurisdiction for the trial of contested elections, and appeals lie to the Supreme Court at Ottawa. In respect to elections for the Local Legislature of Ontario, the Judges of the Court of Appeal and of the Superior Courts of Law and Equity meet annually in Michaelmas Term and severally elect, by a majority of votes, a Judge from their respective Courts to be placed on the rota for the trial of election petitions. In the case of death or the illness of a Judge so chosen, the Court of which he is a member meet and elect another Judge. Trials involving corrupt practices are presided over by two Judges, otherwise a single Judge presides, and an appeal lies to the Court of Appeal of the Province.

COUNTY COURTS.—Presided over by a resident Judge in each county, assisted in some counties by a Deputy or Junior Judge. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed $200; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to $400; and to all bail bonds and recognizances of bail given in the County Court, to any amount; but not to cases involving the title to Lands, validity of wills, or actions for libel, slander, crim. con., or seduction. An appeal lies to the Court of Appeal of Ontario.

COUNTY COURT SITTINGS AND COURT OF GENERAL SESSIONS.—The County Judge in each county holds a sitting of his Court and a Court of General Sessions in his county semi-annually on the second Tuesday in June and December, except in the County of York, in which county said Court is held four times, commencing on the first Tuesday in December and March, and the second Tuesday in May and September, the latter Courts for the trial of cases of felony and misdemeanor, but treason and capital felonies are exempted from their jurisdiction. The Judge may also, in his discretion, hold additional sittings at such times as may be deemed expedient to expedite business, but only for the trial of issues of fact without a jury.

COUNTY JUDGE'S CRIMINAL COURT.—Persons committed to jail for trial, on charge of being guilty of any offence for which they may be tried at a Court of General Sessions *may, with their own consent*, and subject to the provisions of the Act in that behalf, be forthwith tried by the Judge of the County Court and General Sessions without a jury, and if convicted, be sentenced by said Judge; and the Judge sitting on any such trial for all the purposes thereof, is constituted a Court of Record, and the record in any such case shall be filed among the records of the Court of General Sessions last mentioned.

COURTS OF REVISION.—The County Judges hold annually Courts of final revision of the Assessment Rolls of each Municipality, being in the light of Courts of Appeal from the first Court of Revision held by the Municipality; and also Courts for the Revision of the Voters' Lists for Provincial Elections. The Voters' Lists for Dominion Elections are now settled by Revising Barristers under the Act of 1885.

SURROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting and revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effect in Ontario, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Chancery Division. The County Judges are also Judges of the Surrogate Courts. *Chief Surrogate Clerk at Toronto*—Sir J. L. Robinson, Bart. *Assistant*—F. A. Robinson.

DIVISION COURTS, for the summary disposal of cases by the presiding Judge, being the County Judge or his Deputy, or any Barrister appointed to hold the same; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract where the balance claimed is over $100 and under $200 and the original amount was ascertained by the signature of the defendant, and to $100 in other cases of debt, subject to an appeal to the Court of Appeal; but the sum of the account to be gone into cannot exceed $400; injuries or torts to personal chattels amounting to $60; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquor drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Each Judicial District is divided into Court Divisions, and Courts are held once in two months in each Division, or oftener at the discretion of the Judge. The Divisions are established by the Courts of General Sessions, and in certain cases by the Judges.

Safe Business Rules.

Business men, in business hours, attend only to business matters. Social calls are best adapted to the social circle. Make your business known in few words, without loss of time. Let your dealings with a stranger be most carefully considered, and tried friendship duly appreciated. A mean act will soon recoil, and a man of honor will be esteemed. Leave "tricks of trade" to those whose education was never completed. Treat all with respect, confide in few, wrong no man. Be never afraid to say no, and always prompt to acknowledge and rectify a wrong. Leave nothing for to-morrow that should be done to-day. Because a friend is polite, do not think that his time is valueless. Have a place for every thing, and every thing in its place. To preserve long friendship, keep a short credit; the way to get credit is to be punctual; the way to preserve it is not to use it much. Settle often; have short accounts. Trust no man's appearances; they are often deceptive, and assumed for the purpose of obtaining credit. Rogues generally dress well. The rich are generally plain men. Be well satisfied before you give a credit that those to whom you give it are safe men to be trusted.

INTRODUCTORY.

Toronto was founded in 1749, under the name of Fort Rouille, by order of the Government of Louis XV. of France, and for over forty years was simply a trading-post for the purpose of barter with the Indians. In 1793 Governor Simcoe arrived upon the scene, and decided to establish the Provincial capital upon the site of the Fort, and called the place York. It was thus known and on account of its dirty streets was commonly called Muddy Little York, until 1834, when its name was changed to Toronto.

Toronto has now a population of nearly 200,000. It is the metropolis of Western Canada, and the centre of legal, educational and business activity for the Province of Ontario.

The goods entered at its Custom House amount to $20,000,000 annually, but its import trade is greater than this, as a large amount of goods handled here are entered at Montreal and other ports.

Toronto possesses a fine harbor, sheltered by its Island, which forms a bay about one mile in width; the city extends nearly eight miles along the shore, and covers altogether 24 square miles, and contains 242 miles of streets. Its assessessment for 1891 amounted to $146,860,000, and the revenue for 1891 was about $3,630,000.

High Park at the western extremity of the city is a large and romantic park and may be reached by the Queen Street west cars. Fare 5 cents.

The Horticultural Gardens are perhaps the most delightful of all Torontos Parks and Gardens. They occupy the block enclosed by Carlton, Sherbourne and Gerrard Streets, and are reached by the Sherbourne Street cars. During the summer they are brilliant with all manner of flowers and shrubs, and the Pavillion is used for the principal concerts and lectures during the winter season. Admission to the gardens free.

CHURCHES.

Toronto has been called the city of churches, and contains now over 150 places of worship. While it is almost invidious to single out special buildings as worthy of notice, we might mention St. James' Cathedral, corner Church and King Streets. In the tower of this church is the celebrated Vienna Clock, which strikes the hours and playsthe chimes every quarter hour. The tower and clock are open to the public any time during the day, except between 12 and 1 o'clock. Admission may be had by applying to the sexton in the church. Fee 10 cents. St. Michael's Cathedral, Roman Catholic, on corner of Church and Shuter Streets. Metropolitan, Methodist, corner of Church and Queen Streets. St. Andrew's, Presbyterian, King Street, corner of Simcoe. Bond Street Congregational, corner of Bond Street and Wilton Avenue. Jarvis Street Baptist, corner of Jarvis and Gerrard. Besides those named, there are a number of fine church buildings in different parts of the city, some of which may be seen in a drive along Bloor Street or Spadina Avenue.

PUBLIC BUILDINGS.

New Parliament and Departmental Buildings. This fine block of buildings is now in course of erection in the Queen's Park. They were commenced in 1886, and will probably be completed in 1892. Estimated cost, $1,250,000. Architect—Waite of Buffalo.

New City Hall and Court House. These buildings, which will probably be the finest municipal buildings in the country, are being erected on Queen St. north of Bay St. The corner stone was laid in October of this year, and it is expected that they will be completed in 1896. They are estimated to cost $1,500,000. Architect, E. J. Lennox, Toronto.

The University. A beautiful specimen of Norman architecture, was built in the Queen's Park in 1856-8, at a cost of about $500,000. It was on 14th February, 1890, partially destroyed by fire, but has since been rebuilt on the old lines. An English writer has said that it is the only piece of collegiate architecture on the American continent, worthy of standing room in the streets of Oxford. Its library, which was almost totally destroyed in the fire, is now being formed again. At present it is contained in the School of Science building. Plans for a new fire proof building have been adopted, and building operations are now in progress. From October to June the library is open daily, except Sunday and holidays, from 10 a.m. to 5 p.m., during vacation, from 10 a.m. to 1 p.m. There is also an interesting museum which is contained in the Biological Building.

The Meteorological Observatory under the direction of Mr. Charles Carpmael is in the Queen's Park south of the University, and is open to any one obtaining an order from the Director.

School of Practical Science, near the above, contains fine Engineering, Chemical and Assaying Laboratories, open to the inspection of the public during the session between 9 a.m. and 5 p. m. Prof. J. Galbraith, Principal.

Osgoode Hall on Queen Street, near York Street, is the Canadian Inn of Court and is the place where the High Courts of Justice and Chancery hold their sittings The Hall, Court Room and Library are open to visitors. The latter being for the use of the profession in the city and province.

Toronto Public Library, corner of Church and Adelaide Streets, is open free to the public every week day from 8.30 a.m. to 9.30 p.m.

Other Public Buildings which might be mentioned are the Custom House, corner Front and Yonge Sts.; Post Office, Adelaide St., opposite Toronto St.; Knox College on Spadina Ave.; Trinity College, Queen St West; Baptist College, Bloor St. West; Board of Trade Building, north-east corner Front and Yonge Sts.; Canada Life Building, King St., near Bay; Bank of Commerce, corner King and Jordan Sts.; Confederation Life Building, in course of erection, corner Yonge and Richmond Sts.; Lieut.-Goveruor's Residence, corner King and Simcoe Sts; Upper Canada College, head of Avenue Road; Y. M. C. A. Rooms, corner Yonge and McGill Streets.

Penitentiaries in Canada.

There are five penitentiaries in the Dominion, situated at Kingston, Ont., St. Vincent de Paul, Montreal, Que., Dorchester, N B., Stony Mountain, Man., and New Westminster, B.C., and the total convict population of Canada (that is, the total number confined in the above penitentiaries) on 30th June, 1889, was 1,195, being an increase of 101 as compared with the same date in 1888, when the number was 1,094. This large increase is to be regretted, as it cannot be taken to indicate anything but a larger amount of crime, the number of convicts received having been 434, as against 360 in 1888, an increase of 74. Still, however, in proportion to population, the figures, in spite of the unsatisfactory increase, may be considered small, the proportion in 1889 having been 1 convict in every 4,247 persons, in 1888 1 in 4,639, and in 1887 1 in 4,206. The convicts comprised 1,170 males and 25 females. The proportion of females to males was about the same, viz.: a little over 2 per cent.

Railways in Canada.

In India and in all the principal British Colonies, with the exception of Canada, the railways have been chiefly and in some cases entirely, built by the Government with public money, and large portions of the public debts have been incurred for that purpose, but in this country the Government have only built or acquired such lines as were required by public policy, those being the Intercolonial and connections and the Prince Edward Island Railways—the first being built in accordance with the wishes of the Imperial Government, and the second having been partly assumed and finally completed in accordance with the agreement made with Prince Edward Island when that Province entered Confederation. The Dominion Government, however, has always been active in encouraging private enterprise, and in that way has expended no less a sum than $139,745,691 in the shape of bonuses at different times to different railways, which sum represents a considerable portion of the public debt, and which, as previously mentioned, though directly productive to the country at large, brings in no immediate return to the Government. In addition to the above, the Government has at various times made loans to railways, the amount of such loans at present outstanding being $21,201,314 The Provincial Governments have also contributed aid to the extent of $25,048,785, and various municipalities to the extent of $13,709,624.

In addition to the sums above mentioned as having been paid by the Dominion Government, subsidies of Dominion lands, principally to lines in Manitoba and the North-West Territories, have been granted at various times, amounting altogether to 46,499,433 acres. If these lands are placed at the lowest estimate, viz., $2 per acre, they represent a sum of money amounting to $93,998,866; if valued at the present valuation placed on their unsold lands by the Canadian Pacific Railway Company, based on an average of the sales of the last two years, viz., $3.57 per acre, they would represent a sum of $166,002,965. The Provincial Government of Quebec also, in addition to money payments of $10,559,758, have granted lands to the extent of 7,990,500 acres. Some of the other Provinces have also made land grants, but not to the same extent. Details, however, are not available.

The first railway in Canada was opened on the 21st July, 1836, between Laprairie and St. Johns, in the Province of Quebec, its length being 16 miles, but such little progress was made in railway development, that when the first sod of the Northern Railway was turned by Lady Elgin in 1850, there were but 71 miles in operation in the whole of what is now the Dominion of Canada. But this country, though undoubtedly backward at one time in the matter of railway construction, has of late years made very considerable progress. In 1867 there were 2,258 miles in operation, and on the 30th June, 1890, 13,256 miles, with a total of 14,004 miles completed, being an increase in the 23 years since Confederation of 10,998 miles in operation. In 1868 the paid-up capital amounted to $160,471,190, and in 1890 to $786,447,812. The progress of railroad construction is briefly shown by the following figures: 1840, 16 miles in operation; 1850, 71 miles; 1860, 2,087; 1870, 2,497; 1880, 6,891, and in 1890, 13,256 miles.

Though returns of a certain kind were annually made to the Government, they were, previously to 1874-75, more or less incomplete, and only since that year have any accurate statistics been collected. The following table gives the train mileage, number of passengers and tons of freight carried, and the receipts and expenditure of all railways in the Dominion for each year since the 1st July, 1874:—

ELECTRO-THERAPEUTIC INSTITUTION

231 JARVIS STREET, TORONTO.

For the Treatment and Cure of Diseases not cured with medicine or other methods of using Electricity with the ordinary Batteries and Electrical Appliances of little or no value (curatively.)

Patients treated either at the Institution, their homes or in private apartments, for diseases Acute, Chronic, Obscure, Nervous or others. We employ superior medical skill for Special Diseases—the Eye, Ear, Nose, Throat, &c.—who have had experience in London and other Hospitals. FEMALE WEAKNESSES.—Uterine Diseases most successfully treated with Electricity; also, "Nervous Debility," (a lack of nerve force), etc.

With the proper knowledge of compounding the best qualities of Electricity and the use of our new improved Medical Batteries the subtle fluid is made to obey the mandates of the will through nature's fixed laws, and thus act upon the most obstinate forms of disease, speedily changing the condition to health and vigor, and as kindly and quietly as the genial rays of the sun in spring-time mellow the frozen earth and infuse new life in the soil.

The mystery in making such marvellous cures is simply in knowing how to utilize the most potent and effective means in the world. Evidence in abundance of the highest type confirming all and more than we claim for this mighty agent properly manipulated from our superior machine. (A complete handbook with each Battery.) See the Electric Age for testimonials and references, such as Hon. T. B. Pardee, Sarnia; Chas. Stark, Esq., Merchant, 52 Church St., Toronto; Rev. G. M. Milligan, 384 Sherbourne St., Toronto; Rev. How to Learn Shorthand

Few studies can lay claim to such wide-spread utility as Shorthand, nor can it be said of any accomplishment of similar value that it can be learned so easily. The value of Isaac Pitman's Shorthand (Phonography) as a means of education can scarcely be over-rated. Being founded on a scientific and rational basis, the learning it trains the mind and improves the intellect. Its use gives a correct pronunciation, and is a great help in learning to spell. Every facility is afforded in learning it, and the instruction books are so plainly worded and so carefully compiled, that the art is pleasantly and easily acquired. The Cyclopædia of Education, in an article on Shorthand, states that it is "easy to write, easy to read, and easy to learn."

Press Opinions on Isaac Pitman's Phonography

THE TIMES.—Generally in use, and now the favorite system. . . . Other schools of Shorthand lay claim to greater merits, but none have succeeded in ousting Mr. Pitman's from pride of place.—*27 and 29 Sept., 1887.*

THE DAILY NEWS.—The most practical of all systems of stenography.—*3 March, 1886.*

THE GLOBE.—Has practically displaced all other systems. Is nearly universal among the shorthand writers of the present day.—*26 Sept., 1887.*

ILLUSTRATED LONDON NEWS.—A perfectly scientific system of shorthand. Unquestionably far superior to every other.—*1 Oct., 1887.*

THE QUEEN.—At the present time the most popular system appears to be that of Isaac Pitman. . . . The continued popularity of the system proves its success.—*1 Oct., 1887.*

THE SCHOOLMASTER.—Despite the appearance of hundreds of new systems, a large proportion of them still-born, totally unrecognized, or practically useless, Phonography still holds the field as the leading system.—*11 June, 1887.*
